

epic-View

Visual Display Systems

The epic-view series of visual display systems from RSi offers a complete visual display system incorporating the latest in modern technology applied to level D visual systems for pilot training. Building on its heritage of introducing cutting edge technology to the level D market, RSi presents the epic view line of visual display systems featuring a collimated display, image generator and projection system as well as worldwide database and specific airport models.

epic Features

- Incorporates an epic Visual System
- Meets or exceeds all level D requirements
- Low life cycle cost
- Low cost maintenance
- Ready to integrate to legacy and modern FFS
- Motion compatible
- Industry leading image generator performance
- Efficient design accommodates multiple projector types
- Customizable to customer requirements

epic Technology

- Up to 8.8^{mp} per channel
- LED & laser illumination
- 9^{ft}, 10^{ft} & 11^{ft} display radius
- FOV from 180 x 40 to 220 x 60
- Rear and front projection options
- Includes LED sphere projector for system alignment
- Built-in alignment and edge blending

epic Lineup

epic-View D-21

Laser LCoS
 200°H 40°V
 2.1^{mp} (per channel)
 Rear or Front Projection

epic-View D-21+

Laser LCoS
 200°H 40°V
 2.1^{mp} (per channel)
 Rear or Front Projection

epic-View D-41

LED DLP
 210°H 45°V
 4.1^{mp} (per channel)
 Rear or Front Projection

epic-View D-88

Laser LCoS
 220°H 45°V
 8.8^{mp} (per channel)
 Rear or Front Projection

epic-View D Series

- For level D systems
- epic D-series visual with collimated display
- COTS components readily available globally
- Meets all level D Specifications
- Support for Visual QTG
- Already certified worldwide
- Integrated with all known OEMs
- Market leading price performance

epic-View F Series

- For FTD systems
- epic F-series visual with collimated display
- COTS components readily available globally
- 9^{ft}, 10^{ft} & 11^{ft} radius collimated displays
- Common software core with D-series
- Common airport models with D-series
- Worldwide satellite imagery coverage
- Optimal price performance for FTD systems
